HICR'S CHINA HALE .- Mr. A. H. Hicks, the enterprising proprietor of this magu ment, will please accept our thanks for the very handsome and opportune present made to us a day or two since of an elegant Double Wall Porcelaitlined Ice Pitcher. We say opportune, because it came just at a time when we were casting about to invent some plan by which we could have a constant supply of cool water during the warm summer months. We now have just the thing. Not liking to recommend anything to the public without first testing its qualities, we filled the pitcher with water, say some hal? gallon or three quarts, about dark, let it stand in a room all night, and after sunrise in the morning we found the water sufficiently cold.

For description of this Ice Pitcher and other inventions for keeping cool water for family use during the summer months, we respectfully call the atten tion of the public to an advertisement in another column of this paper, headed "Important to Fami-

THE NATIONAL ANNIVERSARY .- The Sceneizer Verrin (Swiss Relief Society) are progressing rapidly with their preparations for celebrating the approaching anniversary of the Declaration of American Independence. There is no event recorded on the page of history more worthy of honorable commemoration than that which secured to the American people redemption from the rule of another country; and we heartly approve of signalizing the annual recurrence of "Independence Day" in such manner as shall preserve fresh upon the memories of the people the wonrn and the cosr of the privileges we possess. We are, therefore, gratified to see our Swiss fellow-citizens preparing to celebrate with so much spirit our national anniversary. "The proud Switzer" knows how to appreciate the blessings we enjoy, for he hails from a land where a republic has existed for five hundred and fifty years.

We had the pleasure yesterday of seeing the magnificent flag to be presented to the Society, and it is truly a gorgeous affair. On one side is to be seen the stars and stripes, and on the other the Amerigan Eagle, holding in his mouth a scroll, to which is attached the cost of arms of the United States and of the Espublic of Helvetin, in Switzerland, whose independence dates back as far as 1307. The design is tasteful and highly creditable to the patriotic Switzers who are getting up this pageant in honor of their adopted country.

The beautiful flag will be preschted to the Swiss Relief Society at Cockrill's Spring, on the morning of the 4th of July, by a number of young Ameriean. Swiss and German ladies, after the procession has reached that place from the Public Square. After the presentation of the banner, the Declaration of Independence will be read by M. A. Fogg, Esq., to be followed by a historical address upon Switzerland and the United States by Raudall W. Mucgavook, Esq. After these exercises, dancing, target shooting, &c., will be the order of the day. A good brass band will be in attendance.
